FLYING FISH

Travel

Embark on an escapade to Philippines during it's best time of the year, spending the week of Eid AlFitr to explore some of the main dive spots around Cebu Island, encountering an array of diverse and unique creatures of all shapes and sizes.

We are ready to kick off the season with a very diverse diving adventure,

Are you ready too?

About the Trip

Our trip starts with 3 nights at the small city of Moalboal, where you get a chance to witness thousands of sardines at Pescador island in a scene that's rare to see rather than dive in, beside the chance to encounter the rare mandarin, and frog fishes among other indigenous creatures.

Heading afterwards to the gorgeous Island of Malapascua where you will get a rare chance to dive with multiple thresher sharks at their regular cleaning station, beside chances to encounter some of the most unique marine life like flamboyant cuttlefish, blue ring octopus, hundreds of Nudibranchs, and much more.

Probable encounters also includes whale sharks, hammerheads, and different kinds of rays, the list is just endless !
